

Agriculture Support Program

Agricultural producers and transporters can apply to the Agriculture Support Program (ASP) using this form. Review the details below for additional program and eligibility information.

What is the Agriculture Support Program (ASP)?

The ASP supports agricultural producers and transporters that purchased fuel in Washington state between January 1, 2023, and December 31, 2024.

You may qualify for the ASP if you are a producer and/or transporter of agricultural products, and you paid a surcharge imposed by your fuel retailer or supplier related to the Cap-and-Invest Program on fuel used for exempt purposes under the Climate Commitment Act.

If your fuel retailer or supplier did not impose a surcharge related to the Cap-and-Invest Program at the time you purchased your fuel, you will not be eligible for the ASP. If there was no surcharge imposed on only a portion of the fuel you purchased, you are still eligible to apply for the gallons of fuel that included the surcharge. Remove those gallons that did not include a surcharge from your total.

What is an agricultural producer?

A person in the business of growing, raising, and producing any agricultural product to be sold or a person providing horticultural services to farmers. This does not include agricultural production for a person's own consumption.

What is an agricultural transporter?

Persons or entities that take or carry agricultural products for commercial purposes on public highways.

What is an agricultural product?

Any product of plant or animal care, cultivation, and breeding.

“Agricultural product” does not include: cannabis, usable cannabis, or cannabis infused products; timber; animals or animal products from stockyards, slaughterhouses, or packing houses, or animals classified as pet animals.

I live outside of Washington state. Can I still qualify?

Yes! You do not need to be a Washington resident to apply. Ensure the reported fuel was purchased in Washington state for producing or transporting agricultural products during the 2023 or 2024 calendar years.

Can I apply for both 2023 and 2024?

Yes! You may apply for support payments for 2023 and 2024. You must submit a separate application for each year.

What fuel types are eligible?

Gasoline and special fuel used for agricultural purposes. Special fuel types include: diesel, propane, natural gas, kerosene, and bio-diesel.

How do I calculate eligible fuel?

Review your fuel purchase documentation and add up the total gallons of fuel you used to produce and transport agricultural products in 2023 or 2024. Report totals for agricultural production and transportation separately.

Remove any gallons purchased that did not include a surcharge related to the Cap-and-Invest Program. You may round the total gallons you report to the nearest hundred.

Do not send in your fuel purchase documentation or receipts.

How much will my payment be?

Payments are based on the number of gallons of fuel reported. See the table below to review the payment amounts.

Payment Amount	Reported Fuel Usage
\$600	Less than 1,000 gallons
\$2,300	Greater than or equal to 1,000 gallons and less than 4,000 gallons
\$3,400	Greater than or equal to 4,000 gallons and less than 10,000 gallons
\$4,500	Greater than or equal to 10,000 gallons

When will I receive my payment?

Once your application is approved, direct deposits will be made within 3 weeks. If you would like your payment to be mailed to you, it may take an additional 10 to 14 days to receive your payment.
