*Not allowed- Calculators with QWERTY keyboard*

*Allowed- Graphing calculators without QWERTY keyboard*

# SMARTWATCHES

## Not Allowed- Smartwatches with camera

Padgene

Hongyu

Arrow

Tagital

Aplus

Vox

Luxsure

Spy Camera

Sony

Qiufeng

Apro

Aplus

A18 Sport

Bluetooth or WiFi connection is required to connect to the internet. For Bluetooth to be effected the device must be paired to a Smartphone within 30' to 60' of the device. For WiFi to work, both the smartphone and smartwatch must be on the same WiFi network. Do not supply WiFi password to candidates.

These watches are *prohibited* in the exam room however, because they have internal memory (storage) and are capable of taking images/photographs of the examination booklets.

Note: Most of these watches have a small, usually rectangular, camera lens either at the top or bottom of the watch face.

## Not Allowed- 3G/LTE Smartwatches

LG LTE Urbane

LG Smartwatch

Microsoft

Samsung S3

These watches can use Bluetooth, WiFi, or Cellular Data to connect to the internet. They will have access to search engines (i.e., Google, Yahoo). These watches do **NOT** need a smartphone to function and are therefore prohibited.

## Allowed- Smartwatches without camera or 3G/LTE

Samsung S-Gear

Hype

Apple 2

Apple 2

MitMood

ikonwatch

Bluetooth or WiFi connection is required to connect to the internet. For Bluetooth to be effected the device must be paired to a Smartphone within 30' to 60' of the device. For WiFi to work, both the smartphone and smartwatch must be on the same WiFi network. Do not supply WiFi password to candidates.

These smartwatches are *allowed* since they do not have a camera or 3G/LTE.
